

SETTING UP YOUR DLINK CARD:

Double click the icon in Screen 2, Item #1

You should see screen 1. If there is no Associated link click on site survey, choose the signal and click connect.

The screenshot shows the 'D-Link AirPlus G Wireless Utility' window. On the left is a navigation menu with 'Link Info. >>>' selected. The main area displays connection information: Status is 'Associated BSSID=00-0D-88-A3-5C-83', SSID is 'qlynx', TxRate is '11' Mbps, and Channel is '8'. Below this are two progress bars for 'Link Quality/Signal Strength': Link Quality at 87% and Signal Strength at 98%. At the bottom, the 'Data Rate' section shows Transmit at 0 Kbps and Receive at 63 Kbps, with corresponding bar graphs.

The screenshot shows the 'D-Link AirPlus G Wireless Utility' window. The left navigation menu has 'SiteSurvey >>>' selected. The 'Available Network' section contains a table with two entries. The 'Connect' button is circled in red with an arrow pointing to it from the number '2'. Below, the 'Profile' section shows a profile named 'qlynx' with 'Add', 'Remove', and 'Properties' buttons.

| BSS/IBSSID | SSID | WEP | AP | Channel |
|-------------------|--------|-----|-----|---------|
| 00-0D-88-A3-5C-83 | qlynx | No | Yes | 8 |
| 00-02-2D-01-AB-97 | FSJ912 | Yes | No | 6 |
