

MAX Internet

JULY 2002 NEWSLETTER:

SUMMER UNLIMITED @ HOME: look to the bottom of this note for a coupon that entitles you to unlimited dialup internet from July 1 to Aug. 31 for \$49.00. Feel free to print out extra coupons and give them to your friends, including any that pay more for out of town internet!

JOURNALIST CONTEST: www.sortweb.com is providing a FREE year long unlimited internet package to the winner of our Fort Saint James journalist contest. Just go to www.fsames.com and click to become a journalist. Submit a local story and you may be the grand prize winner. Hint: it doesn't cost a thing to enter!

FREE 60 DAY TRIAL: for business e-cards and websites on our WORLD portal for Fort St. James. Promote your business world wide!

Did you know that if your business is @ cnetdirect you can use @fsames.com as well? If you want to associate your business e-mail with our town, go to Outlook/Tools/Accounts/Mail and click Properties. On the general page, change your e-mail address to @fsames.com. That's it!

WALK IN INTERNET: We offer walk-in high-speed Internet access for \$2.99 per half hour. Max customers: If you have a computer in for service here, you may use it FREE. If your computer has a network card, you can plug in and download for only \$2.99 per half hour. We supply the monitor, keyboard, mouse and FAST downloading! We can also send, receive, and print your large attachments for you.

LESSONS AT HOME: book a reservation for an evening lesson at home. What do you want to learn? E-mailing, virus checking, scanning & printing, CD Burning; \$45.00 per hour.

TIPS & TRICKS: MSN, AOL and YAHOO messenger can cause problems on some systems with their latest upgrades. If you have trouble surfing (DNS error page show a lot) try disabling the autostart of you messenger program. You can start it after you connect by clicking the icon.

Stay away from Bonzi – Imesh – Comet cursor – KaZaa and any 'download enhancers' as they put SPYWARE into your system and SLOW your internet down! That's right, they LIE to get you to put it in. To see how much stuff is going on that you're not aware of try downloading AD AWARE from Lavasoft to clean out your system. Go to www.fsames.com (either WORLD or LOCAL) and look for FILE SERVER under SOFTWARE to try it out.

unlimited all summer
that's right: unlimited dialup access
