

Internet Technologies Inc. **JUNE 2003 NEWSLETTER**

**SUMMER COMING:** You can be surfing faster, 24 / 7 without a phone line! If you currently have a dedicated telephone line for Internet use, you'd be paying about \$25 for the line, \$25 for the Net. You could be surfing wireless for less than \$29.95 a month. If you're a business you could be paying \$80 a month for phone and net. Business wireless starts at \$45.99. \$250 home install fee, variable for business.

**ADSL:** Max also offers home and business ADSL accounts at competitive rates. Sometimes we can hook you up when others can't. We work harder – ***you only have to Telus once*** ☺

**3 mo DIALUP SPECIALS:** Dialup specials are \$39.00 for a 30 hr/mo account. \$50 for 50 hrs/mo, and \$75.00 for unlimited dialup access for June - August 31.

**NEW: DIALUP OVERAGE INSURANCE.** For \$2 a month you can 'insure' your dialup account so if you 'accidentally' go over, the first 10 hours are taken care of. That's one-sixth the rate of regular overtime! Note: you can check your time online at [www.fsames.com](http://www.fsames.com) under the TOOLS – MEMBERS – CHECK TIME button.

**'MICROSOFT' VIRUS:** beware of an e-mail attachment that comes in an e-mail saying it's from **support@microsoft.com**. It is the palyh virus! If you check the message header, it may even tell you that you sent it to yourself.

**DIALUP E-MAIL HANGS?:** First, close your E-mail program and wait 5 minutes. Go to [www.fsames.com](http://www.fsames.com) under the TOOLS – MEMBERS – WEB MAIL button and check it from there. Look at the SIZE on the far right. If you see one listed in MB then it's probably what's hanging your e-mail. You can delete it from the web interface, so it won't hang your Outlook. Use the Web Mail if you're out of town or at someone else's computer.

**MAX WEBSITE:** functions that relate to computer pricing, internet accounts and services are being set up at [www.maxit.net](http://www.maxit.net). Many services under the fsames.com MEMBERS area can be found here.

**SIMPLE HOSTING:** If you're a Max Internet member, buy a domain name and we'll host it for as little as \$9.95 a month added to your account.

**AT [WWW.FSJAMES.COM](http://WWW.FSJAMES.COM) :** on today's MENU:

**Buy and Sell** back up and running. Pictures will be added later. 'Tools'

**Message Board** is back up and running.'Tools'
