

VIRUSES AGAIN: Do NOT open attachments from *admin@cnet*, *qlynx*, or *fsjames.com*! They are phoney e-mails containing a virus. We do NOT send out mail with attachments, nor does any other Internet company. Do NOT open attachments from Microsoft, that is another VIRUS. Microsoft does not send you mail with attachments. Getting a lot of mail returned by the system, with attachments? They are infected files and mean that either *you already have a virus*, or *someone with you on their contact list* has been infected. All the newer viruses fake the mailing address of the sender. Many place one address from the infected computer's contact list into the "from", another into the "to" and the rest into the "bcc [blind carbon copy]" fields of outlook and flood the mailboxes. That's how you get mail that lies about who sent it and may not even be addressed to you.

POLLING RESULTS: Surprise, 60% of voters say we live in a nice town. Only 28% want to burn it down and plow the earth with salt! 60% of voters are not expecting to see any benefit here from the 2010 Olympics. A resounding 94% of people are opposed to a tax on e-mail. We've been surprised by the high numbers of people responding to our web polls, and we'll keep them up. Our newest feature allows several randomized polls to work all at once. You may get a different poll just by clicking the refresh button. Got a question you'd like to see on a poll? e-mail your suggestion to admin@fsjames.com.

WEB MAIL: lots of people still don't know you can check your mail JUST LIKE HOTMAIL from a web browser. Go to www.fsjames.com or www.maxit.net and click the mailbox. Or look under TOOLS - MEMBERS for web mail. Or you can just type "mail.fsjames.com" into your browser's URL. It works for qlynx, fsjames, cnetdirect and tlazten mail.

NET SPECIALS: 30 hr/mo "Student Pkg" Nov.1 - June 30 for \$116.00, 50 hr/mo "Family Pkg" Nov. 1 - June 30 for \$145.00, "Unlimited Pkg" Nov.1 - June 30 for \$207.00

WINDOWS KEY TIP: Though the **WK** (Windows Key) is on most modern keyboards, most people do not know how to use it. Here are some uses:

WK alone: START menu WK + "D": Minimizes all windows

WK + "E": Windows Explorer WK + "F": Search Window WK + "SHIFT"+"M": Restores all Windows

WK + "R": "Run" WK + "U": Utility Manager WK + "F1": Windows Help

WK + "Pause/Break": System Properties.

WEBSITE TIP OF THE MONTH: To find out what's on local TV (the TV Society broadcast) go to www.fsjames.com, click onto TODAY, NEWS, TV NEWS, FSJTV on the menu. You'll get a list of what's on today [remember 11:00 pm EST is 8:00 pm here]. To view any newsletters you may have missed, visit www.maxit.net and click the newspaper icon or look under TOOLS, MEMBERS, NOTES on www.fsjames.com.
