

**CNETDIRECT.COM:** This is just a reminder to any users still using @cnetdirect.com as your e-mail address that the domain has been sold and will stop working shortly. If you haven't already done so, go directly to your Outlook - Tools – Accounts and change your email address from @cnetdirect.com to @fsjames.com. Double check the next page to make sure your servers are set to mail.fsjames.com.

**UPDATED PROGRAMS:** Everyone using AVG antivirus should be aware that the FREE VERSION 6 will not be supported after Dec. 31<sup>st</sup>. The FREE VERSION 7 is already available at [www.grisoft.com](http://www.grisoft.com). AdAware also updated a few months back to AdAwareSE v1.50 and the AdAware6 support will probably discontinue soon. The new version is available at [www.lavasoft.de](http://www.lavasoft.de).

The official release of FIREFOX web browser v 1.0 is now available as is the 0.8 pre-release version of THUNDERBIRD e-mail. They can be found at [www.mozilla.org/firefox](http://www.mozilla.org/firefox) and [www.mozilla.org/thunderbird](http://www.mozilla.org/thunderbird)

**LIDO ADS OUT OF DATE:** this is caused by poor cache management in Internet Explorer. Sometimes you can correct this by hitting the refresh button, but usually it will not refresh unless Firefox or Opera refreshes first. Even doing that, Explorer on my laptop shows an ad from Oct.26 on Nov.29<sup>th</sup> and will not correct itself.

**LOOK AT [WWW.FSJAMES.COM](http://WWW.FSJAMES.COM):** before you get frustrated and drive down or call, look at the website [www.fsjames.com](http://www.fsjames.com). Everything to do with your town, your internet and what's going on is listed there. If your browser starts with MSN, change it. MSN is for babies. If you really want a corporate website try [www.maxit.net](http://www.maxit.net) where you can at least get your real mail.

**PICTURES WANTED:** The tourist section needs new photos of the Fort And activities here. You can upload them yourself from home, describe them and give yourself credit. From [www.fsjames.com](http://www.fsjames.com), click on Photo Album or Image Gallery and login as "public". Use the password "pictures" and you can upload photos from your hard drive or CD onto the site. The best photos in the public gallery will be used for an updated tourism slideshow, and the rest will be available for people to see.

**MAX WIRELESS:** We have upgraded equipment at Max to improve service and now offer the option to buy your do it yourself wireless kit a lower price. Wireless service will soon be available at Cassiar Ranch, so call if you are interested.

Max would like to thank our customers for their continued support and wish you the best of the Holiday Season.
